

TRIBECA  
GRANDHOTEL

## Grand Screen Pricing

100 Person Capacity

Monday – Sunday

\$2,500 - \$5,000 for two hours / \$500 for each additional hour

for Peak and Non-Peak Season

## Technical Capabilities

### Film Capabilities:

Kinoton FP30ER film projectors, each equipped with 2000-watt lamphouses, and bi-directional operation; lenses for the two most popular American film formats (1.85:1 and 2.39:1); 9' by 17' flat screen with movable masking. We also have 1.66:1 lenses for European films and projectors that run at 25 fps to match. We have 1:33:1 lenses for film festivals.

### Sound System:

A Dolby CP 500D theatre sound system consisting of left, center and right speakers behind the screen, surround-sound speakers in the side walls with separate left and right channels, and a subwoofer; system is equipped for Dolby, DTS, mono, Dolby A and Dolby SR optical formats. We have enhanced our system with a Dolby DMA8PLUS sound processor. The DMA8 is the most advanced processor for analog and digital sound to create 5.1 from all sources.

### Video Capabilities:

We have added a D-Cinema Barco DP1500 to our screening room. With our new Dolby Digital Cinema Server we can screen first run movies digitally like they are starting to do in movie theatres. With our Barco scaler we are able to enhance all our video sources to close to High Definition Standards. We have added new decks to play DVD, DVcam, Blu-ray, Beta, Digibeta, HDCam for the convenience of our customers.

### Television Capabilities:

Network and cable television connections enable screenings of live broadcasts and sporting events in High Definition.
